To establish your price on Non-Patented Roses use volume total of all roses ordered. For instance, if you order 150 Non-Patented and 360 Patented Roses you will be charged the 500 rate on the Non-Patented varieties. THIS APPLIES ON ORDERS FOR 10 OR MORE OF A KIND ONLY.

Prices of Patented Roses

The price of No. 1 grade is as quoted for each individual variety. The price of the No. 1½ grade is twenty per cent less than the No. 1 grade price. The quantity rate of patented varieties is determined by the number of each variety ordered, rather than the total of all varieties. No. 2 grade roses offered only where shown. *Less than 5 of 1 kind of patent roses will be priced at the retail rate less 25%.*

Because of the additional labor that would be involved at an already extremely busy period, our No. 1½ and No. 2 grades cannot be ready for shipment until late December or early January.

All patented roses are grown under License from the various patent holders.

DELUXE WRAP

Our top quality package, generally reserved for #1 grade roses, consists of an inner wrap of 60# machine creped Kraft paper coated with one mil of polyethylene, the roots of plant being encased in our own moisture-retaining mixture.

Several seasons experience has convinced us that this sheet of waterproofed paper is most satisfactory for preserving the moisture content of the package.

The canes of the plant are lightly coated with a controlled temperature green rose wax to seal in all the moisture possible. The plant, after being thus wrapped, is then placed in an attractive colored lined bag, the neck being securely fastened with a wire tie. Full planting instructions are printed on the sides and back and a full color 3" x 5" picture of the plant is secured to the face. The best waterproof paste obtainable is used on this picture and in actual experiment we have found it still firmly attached after several hours complete immersion in water.

When ordering roses of your own selection please add 20c to the cost of each bush for this Deluxe wrap.

This season we plan on wrapping the patented roses in a different colored bag than the non-patented varieties which should aid your clerks in distinguishing between the two classes. In all cases an appropriate colored picture is attached to the package.

Last season we offered assortments of non-patented roses 30 plants to a carton, our choice, (usually at least 10 of the most popular varieties) and a similar carton of patented varieties all Deluxe wrapped #1 grade.

The price on the non-patent assortment will be \$22.00 including boxing.

The patent assortments of 30 plants to a carton will vary in cost according to varieties used but in each case will be priced at 45% off the suggested retail bare root price. All varieties used would be selected from our own list and would include as many of the most popular as our current inventory permits.

ECONOMY WRAP

Should your competition be such we will wrap plants in the polyethylene coated paper only and attach a cardboard picture tag to the canes of the plant for 13c above the cost of any bare root rose.

BUNDLES OF THREE, FIVE, ETC.

Many dealers have enjoyed unusual sales on #2 grade roses wrapped in various types and color combinations. Our listing of the #2 grade packages is shown above.

When your customer gets that early Spring urge to plant it is almost impossible to make him wait for a potted plant. Try some wrapped roses next season—make extra sales, extra profits and advance your rose selling season by six weeks! Order now.
